Universal Background Checks

When we see a news reports about background checks for gun purchases, the story leaves the impression that there are no background checks being done for current gun purchases in the United States. The stories go on to say 80% of the American public favor background checks so we need Universal Background Checks for gun purchases. The truth is that the FBI has been doing background checks for most gun purchases since 1998. All purchases that go through gun dealers require background checks and that includes the vast majority of sales at gun shows. Individuals can sell guns they own to the public without doing background checks but they cannot be in the business of buying and selling guns without getting a Federal Firearms License. When you have a FFL you have access to the FBI background check system and you are required to check everyone who purchases a gun.

Universal background checks would require all firearms transfers to go through an FFL holder so that individuals could not transfer firearms to family members or individuals without going through a licensed dealer. That means that there would have to be a paper trail on all 300 million firearms in the US. There are 350 million people in the US and in Canada where they tried a system of tracking all firearms and found they could not do it. Registering and tracking over 300 million guns would be expensive and nearly impossible and who would bear the burden? The gun owners of course.

And would this type of system stop all mass shootings and gun crime. No. Currently gun purchasers who buy guns online and buy guns from a dealer are required

to go through a background check and this includes gun shows. Individual sales or gifts can be done without a check but these transfers are a very small part of gun transfers. There is no such thing as a gun show loophole.

The promoters of gun control say that they want to stop gun violence so they promote the idea that limiting sales of certain types of guns or even confiscation of guns would reduce or stop gun violence. They tell us that gun violence only happens in the US and that other countries are free of shootings and this is simply not true. Places in the US that have the highest gun crimes are often places with the most restrictive gun laws like Chicago, New Orleans, Washington DC. Criminals also pick gun free zones because they know they will be less likely to be confronted by an armed citizen.

Gun laws are simply not being enforced against known criminals. Gun law violations are very often plea bargained away and that results in bad guys getting a lesser sentence. Why do we even need gun laws if they are not used against criminals who use guns in crime. What can be done is to enforce existing laws and improve the FBI background check system. Data on criminals and people that are a danger to themselves and others needs to be improved. The system won't prohibit people who should be on the list if they are not entered into the system.

We have plenty of gun laws on the books now, so let's enforce them.

THE FACTS: Stats on Gun Violence, 2016 Data

Be assured this will not be discussed in congressional meeting nor on MSN.

STATS ON GUN VIOLENCE

Some interesting statistics. This jives with the research of Prof. Lott at the University of Chicago, who is a noted expert on gun laws and stats.

Here are some facts.

There are 30,000 gun-related deaths per year, and this number is not disputed. The U.S. population is 324,059,091 as of June 22, 2016. Do the math: 0.00925% of the population dies from gun-related actions each year. Statistically speaking, this is insignificant! What is never told, however, is a breakdown of those 30,000 deaths, to put them in perspective as compared to other causes of death:

- 65% of those deaths are by suicide, which would never be prevented by gun laws.
- 15% are by law enforcement in the line of duty and justified.
- 17% are through criminal activity, gang and drug related or mentally ill persons – better known as gun violence.
- 3% are accidental discharge deaths.

So technically, “gun violence” is not 30,000 annually, but drops to 5,100.

Still too many? Lets look at how those deaths spanned across the nation.

- 480 homicides (9.4%) were in Chicago
- 344 homicides (6.7%) were in Baltimore
- 333 homicides (6.5%) were in Detroit
- 119 homicides (2.3%) were in Washington, D.C. (a 54% increase over prior years)

So basically, 25% of all gun crime happens in just 4 cities. All 4 of those cities have strict gun laws, so it is not the lack of law that is the root cause.

This basically leaves 3,825 for the entire rest of the nation, or about 75 deaths per state. That is an average because some states have much higher rates than others. For example, California had 1,169 and

Alabama had 1.

Now, who has the strictest gun laws by far? California, of course, but understand, it is not guns causing this. It is a crime rate spawned by the number of criminal persons residing in those cities and states. So, if all cities and states are not created equal, then there must be something other than the tool causing the gun deaths.

Are 5,100 deaths per year horrific? How about in comparison to other deaths?

All death is sad and especially so when it is in the commission of a crime, but that is the nature of crime. Robbery, death, rape, assaults are all done by criminals. It is ludicrous to think that criminals will obey laws. That is why they are called criminals.

But what about other deaths each year?

- 40,000+ die from a drug overdose—THERE IS NO EXCUSE FOR THAT!
- 36,000 people die per year from the flu, far exceeding the criminal gun deaths.
- 34,000 people die per year in traffic fatalities (exceeding gun deaths even if you include suicide).

Now it gets good:

200,000+ people die each year (and growing) from preventable medical errors.

You are safer walking in the worst areas of Chicago than you are when you are in a hospital!

710,000 people die per year from heart disease. It's time to stop the double cheeseburgers! So, what is the point? If the liberal loons and the anti-gun movement focused their attention on heart disease, even a 10% decrease in

cardiac deaths would save twice the number of lives annually of all gun-related deaths (including suicide, law enforcement, etc.).

A 10% reduction in medical errors would be 66% of the total number of gun deaths or 4 times the number of criminal homicides Simple, easily preventable 10% reductions! So, you have to ask yourself, in the grand scheme of things, why the focus on guns?

continued on page 4

continued from page 4

It's pretty simple:

Taking away guns gives control to governments. The founders of this nation knew that regardless of the form of government, those in power may become corrupt and seek to rule as the British did by trying to disarm the populace of the colonies. It is not difficult to understand that a disarmed populace is a controlled populace.

Thus, the second amendment was proudly and boldly included in the U.S. Constitution. It must be preserved at all costs. So, the next time someone tries to tell you that gun control is about saving lives, look at these facts and remember these words from Noah Webster: "Before a standing army can rule, the people must be disarmed."

NCRPA supports this program. What is Amazon Smile. This is a method the NRA International Teams are using to raise money for the Teams.

Here is how it works. You can go on Amazon Smile and select your charity, in this case it would be "Palma Promotions, Inc." After you do this, everything you buy through Amazon will result in Amazon donating 0.05% of your purchase price to Palma Promotions, Inc. It cost you absolutely nothing and the International teams benefit from the plan. We need you to sign up for this charity program. The more people who sign up the more the teams benefit from Amazon's charitable donation. Here is the link to sign up. Please pass this on to all your friends and club members. We will be eternally grateful:

Camp Atterbury, Indiana

In 2020 NRA national matches in Precision Pistol, Smallbore Rifle and High-Power Rifle will be held at Camp Atterbury, Indiana. Camp Atterbury is an active duty National Guard base owned by the Indiana National Guard.

The base is located in Indiana approximately 35 miles South, Southeast of Indianapolis. If you are arriving from the South take exit 78A off of I-85 onto Highway 31. Follow Highway 31 North approximately 5 miles and turn left onto Hospital Road. Proceed about 2 miles west and you will arrive at the main gate to Camp Atterbury. To enter the base you must show identification, your driver's license will suffice. Page 1 will show you some of the places you may wish to visit. Just inside the gate on the first street you come to, on the left is the housing office.

To get to the Entry/Stat office NRA will have road signs for you to follow. However, if you continue

down EGGLESTON Rd it will take you past the air field to Range 6. You will pass the 1000, 900, 800, and 600-yard lines. The road will dead-end just in front of the 600-yard line. Take a right and follow the road to the ENTRY/STAT office. (See page 4).

The new ranges are set to begin construction on November 1st of this year and will be ready for testing on approximately May 1st. The range will be facing south. The pistol range will be 300 firing points, 4 feet on center while the smallbore range will be 100 firing points, 6 feet on center. Firing may be conducted out to a distance of 100 meters. The range will have a covered firing line with a roof extension forward to cover the competitors from the sun. In that same area behind the range will be the NRA entry/stat office and provisions for scoring and hanging targets. There will be plenty of parking in this area.

are configured as follows: range six has 50 firing points out to 1000 yards. Ranges 5 and 4 have 50 firing points out to 500 yards and range 3 has about 12 firing points out to 1000 yards with provisions for 50 points but the berms are not complete.

When you visit you will find the people on base are very cooperative, want you there and will help you in whatever way they can.

The NRA has acquired two barracks style quarters for junior teams. One for females and one for males. Each building had 2-48 bed quarters with showers and bathrooms in the center. Lockers are available but competitors must bring their own lock. Teams will require at least on chaperone. The facilities will be available at \$40/Night per team regardless of the size of the team. Sheet and pillow cases will be available for rent at \$5.50.

Quarters for adult competitors are \$32 and \$35 per night. It is a motel room with a separate bedroom, kitchen area, sitting room with a TV and a dining area with table and chairs. The bathroom is separate for \$35 and shared for \$32.

There is a trailer Park for RVs but my understanding is you must be a veteran, retired or active duty to use

it. On base there is a BX where health and comfort items may be purchased and a Subway Franchise for breakfast, lunch and dinner if you are into that type of cuisine.

In the area, off base, within short driving distance, you will find at least three major hotel chains, and most any restaurant of your choice. Three small towns are within 15 miles. Franklin on north Hwy 31, Edinburg is east on Hospital Road and Columbus is south about 15 miles.

BIO's for NCRPA Board of Directors

Ralph Carlosn

I am submitting my name for consideration for a position on the Board of Directors for the NCRPA. I work as a Project Manager in the heavy construction industry in the Raleigh area, a current member of the Raleigh Police Department and former member of the Fredericton Police Department. I joined the National Rifle Association many years ago and I am currently a Benefactor Life Member, an NRA Ring of Freedom member and a committee member for the Johnston County (NC) Friends of NRA and also support the Greater Triangle Friends of NRA. I have recently completed my NRA Range Safety Officer training and certification. As an NRA member, I have reached out to many other enthusiasts and have had them become NRA members. I believe in supporting the US Constitution and all Amendments with specific gratitude and love for the 2nd Amendment. I feel I can bring focused energy and dedication to the NCRPA and support its goals of lobbying the NC Legislature and working together with the NRA to protect our rights as gun owners and sporting enthusiasts. My personal goal is to expand membership within the NCRPA and encourage an expanded outreach, membership and events for local youth and women who have interest as gun owners to expand their knowledge, training and love for the various gun related sports and events. I would also like to provide additional support for the Friends of NRA events to expand their footprint in NC and have more people involved within each county to enhance grassroots support. I would appreciate your vote and support to become an NCRPA Board member.

Brian Silva, NCRPA Board Member and Law Enforcement Liaison

I have served in state and local law enforcement in NC since 1995 and I am currently the Chief of Police of a municipal police department in eastern NC.

Life member of NRA and I am a certified NRA Chief Range Safety Officer, NRA rifle instructor, NRA pistol instructor, 4H rifle instructor/coach, 4h pistol instructor/coach, NRA refuse to be a victim instructor.

I have Bachelor of Science degree from Mount Olive College in Criminal Justice Administration.

Currently reside in Eastern NC with my wife and two children.

Please let me proof what you write up before it is submitted.

Thanks

HAVE THEY LOST THEIR MINDS?

By John C. Sigler

“San Francisco officials brand NRA a ‘domestic terrorist organization’” – that was the headline in the September 4, 2019, Fox News article by Adam Shaw. According to Shaw, “The San Francisco Board of Supervisors has passed a resolution declaring the National Rifle Association a “domestic terrorist organization” and urged the federal government to do the same, alleging that the NRA is using “its considerable wealth and organization to promote gun ownership and incite gun owners to acts of violence”.

“Have they lost their minds” you ask? No, probably not. My guess is this is all part of one, well-planned, well-considered and well-executed “grand scheme.” They know exactly what they are doing.

They care little about facts or the truth. And they certainly don’t care about defaming over 5 million law-abiding gun owners who proudly belong to America’s oldest, strongest and largest civil rights organization. They know the truth about you and the NRA, but to them the truth is merely an inconvenience to be brushed aside, ignored, denigrated, and lied about in favor of their progressive “grand scheme”.

They know that NRA is an organization that has, for the past 148 years, promoted firearm safety, adherence to the laws of the land, respect for our flag, our history, our culture, our heritage and the principles of good government, and obedient, loyal and patriotic citizenship. And they know that NRA has never incited anyone, member or non-member, to acts of violence. In fact, they know the opposite to be true. They know for a fact that NRA members are among the most law-abiding, peace-loving, God-fearing, respectful and patriotic members of our society.

Then why are they doing this? The answer is simple.

Last year I was criticized for saying “they don’t hate your guns, they hate you” – Well, it looks like I was right. San Francisco’s defamatory and utterly hateful and ridiculous resolution shows just how far off the deep end their hatred for you, the NRA, and America’s traditional values has driven the anti-gun crowd.

But there is a method to their madness. The real meat of their preposterous resolution lies not in the defamatory and inflammatory labeling of NRA as a so-called “domestic terrorist organization”. No, the real meat of their preposterous resolution lies in the purpose of that resolution which is to do the same thing that New York tried to do – scare off businesses who do business with NRA and its 5+ million law-abiding God-fearing, freedom-loving patriotic members.

Here’s the punch line from their hate-filled resolution:

“The City and County of San Francisco should take every reasonable step to limit those entities who do business with San Francisco from doing business with this domestic terrorist organization”(meaning the NRA and its members).

Sound familiar? Sounds just like New York’s Governor Cuomo and his cronies, doesn’t it?

In other words, this is about money and politics. It’s about trying to remove NRA and its 5+ million members from the electoral playing field in 2020. It’s really about defeating Trump and sending more folks like Diane Feinstein and Kamela Harris to the U.S. Senate, and others like Nancy Pelosi, Eric Swalwell, Adam Schiff and Maxine Waters to Congress – and taking over the US Supreme Court.

But why? What are they after?

If you ask them they will tell you it’s about “progress” – they are, after all, “progressives”. But progress toward what? What is their goal, what is their “end game”?

Is it socialism? Is it communism? Is it despotism? Or totalitarianism? Or is it some combination of all of those things? Or perhaps their idea of “progress” is something not yet named by today’s political and social scientists and studied in the textbooks of our time, something even more sinister and foreboding? I don’t know – and I doubt that most of them do either.

But, what we do know, is that whatever it is toward which they are “progressing”, it isn’t traditional “Americanism” and it certainly isn’t about preserving our Republic, our history, our culture, our heritage, our American way of life, our freedom or our beloved Constitution. Whatever it is toward which they want to “progress”, it is most certainly the antithesis of the freedom and the love of America for which you and I and every other card-carrying NRA member stands, and for which so many Americans have fought and died.

In other words, we – you and I and the NRA – are standing in their way. Standing united, we the 5+ million members of the NRA, are the proverbial roadblock they must remove if they are to achieve their “progressive” goal. They know that in order to achieve their ultimate goal of destroying American freedom, of replacing our beloved market-driven Republic with some socialistic and totalitarian abomination they must first destroy the NRA and your will to stand up to them and to thwart their evil plans.

I have said it before and I will say it again – they don’t hate

your guns, they hate you – because you are standing in their way – their way toward “progress” – their way toward the fundamental transformation of America into something no one who has ever worn the uniform or saluted the flag of the United States of America would ever recognize.

It isn't about guns – no, not really. Guns are simply the symbol. To them, guns represent American traditions and American values. To them, privately owned and lawfully used guns represent traditional American values such as rugged individualism, individual independence and freedom, individual responsibility and self-reliance – American values that each and every responsible NRA member, like you, possesses and cherishes and about which we teach our children, families, friends and neighbors.

OK, so I was wrong – they do hate your guns – but only because of the traditions and values your guns represent. And they hate you and me and the NRA because we embrace those traditions and values, and because the people who embrace those traditions and values will never embrace the “progress” the anti-gunners and those pseudo-Americans wish to achieve.

Stand with me – stand with the NRA – stand for freedom – and stand united and block the path of the anti-gun “progressives” whose idea of “progress” is one that is decidedly un-American and anti-freedom.

If we stand united, we – you, and I, and the NRA – can, and will, defeat these anti-American forces of evil at the ballot box next year, and every election year thereafter. United we win – divided we fail.
